Note: Products shall be installed in Accordance with the Local Code of the Authority having Jurisdiction.

Certificate: 70174836

Project: 70174836

Master Contract: 272124

Date Issued: 2018-03-23

APPLICABLE REQUIREMENTS

NSF/ANSI 372-2016 - Drinking Water System Components - Lead Content

Note: Products certified to NSF/ANSI 372 conform to the requirements for "lead free" plumbing products as defined by California, Vermont, Maryland and Louisiana state laws and by Section 1417 of the US Safe Drinking Water Act.

MARKINGS

The manufacturer is required to apply the following markings:

- Products shall be marked with the markings specified by the particular product standard.
- Products certified for Canada shall have all Caution and Warning markings in both English and French.

Additional bilingual markings not covered by the product standard(s) may be required by the Authorities Having Jurisdiction. It is the responsibility of the manufacturer to provide and apply these additional markings, where applicable, in accordance with the requirements of those authorities.

The products listed are eligible to bear the CSA Mark shown with adjacent indicators 'C' and 'US' for Canada and US (indicating that products have been manufactured to the requirements of both Canadian and U.S. Standards) or with adjacent indicator 'US' for US only or without either indicator for Canada only.

All markings required by CSA must be permanent and legible. Devices or components shall be labeled in a manner to ensure that all markings are visible after installation. Where it is not practical to place the markings directly on the device, component or material, the markings shall be located on the container or packaging and/or literature accompanying the device, component or material. The content consists of:

- manufacturer's identification;
- CSA Mark with "C", "US" indicator;
- Qualifiers "NSF/ANSI 372" or "LLC" or "LOW LEAD CONTENT" below or adjacent the CSA Mark*;
- product identification (optional).

*The word "ONLY" shall be adjacent to the qualifier if the product is being certified only for lead content and bears no other CSA certification.

Products shall be installed in Accordance with the Local Code of the Authority having Jurisdiction.

Note: In addition to the marking requirements other symbols used by industry (such as but not limited to: a grey dot, "low lead", circle with a check mark) are permissible.

Supplement to Certificate of Compliance

Certificate: 70174836

Master Contract: 272124

*The products listed, including the latest revision described below,
are eligible to be marked in accordance with the referenced Certificate.*

Product Certification History

Project	Date	Description
70174836	2018-03-23	Class 6853 01 - Original certification of Lead free plumbing products, Models BC, BP and BZ Series for NSF/ANSI 372-2016 - Drinking Water System Components - Lead Content.
